Miss Tuscany 220/5 is a powerful, feminine heifer full of breed character. She is a Prescott granddaughter. She is deep sided, level from her hooks to pins, sound on her feet and legs with good bone, and is as thick as you can get in a female while still remaining feminine. If you are looking for a donor to add to you program, she is the one. Miss Tuscany 220/5 will fit any brahman program whether you are looking for calves in the pasture or the show ring. She sells bred to Mr. HM 711, who sired a class winner for us at the 2008 International Show in Houston. Mr HM 711 is full embryo brother to Mr. HM 777 who we sold to Brazil and full embryo brother to Superstroke. We feel privileged to put this heifer into the 2008 World Brahman Congress Sale and Thank-you for your consideration. ■
